

**9001151 & 9001157 AC to 48 VDC Power Supplies**

**FEATURES**

- DIN rail mounting
- AC or DC line side input
- 9001151 is 2 Amp, 85 to 264 AC and 120 to 370 VDC input
- 9001157 is 5 Amp, 88 to 246 AC and 124 to 370 VDC input
- 9001178 is 10 AMP, 90 to 264 VAC and 127-370 VDC input
- 48 Volt DC output

**DESCRIPTION**

DIN rail mount 48 volt output DC power supplies. These supplies can operate with either AC or DC input.

The supplies comply with EN61000-6-2. They offer short circuit protection, overload protection, over voltage protection, and over temperature protection. They are UO508 and TUV EN60950-1 approved.

How to Order:

Part #	Description	Price
9001151	2 Amp supply only, no AC input power cord or DC output cord	\$100
9001158	2 Amp supply with US AC power cord and DC power with DC power connector	\$125
9001157	5 Amp supply only, no AC input power cord or DC output power cord	\$225
9001159	5 Amp supply with US AC power cord and DC power with DC power connector	\$251
9001178	10 Amp supply only, no AC input power cord or DC output power cord	\$270
9001179	10 Amp supply with US AC power cord and DC power with DC power connector	\$295
9902100	19 in DIN Rail rack mount kit	\$125
